No male DNA was detected on Items #7.01 (cell phone) and #0005.01A01 (extract from driver door handle).

The male DNA profiles obtained from Items #8.2 (outside of purse) and #8.3 (purse zipper) are mixtures of at least three individuals. Item #1 (Mark Goudeau) cannot be excluded as a contributor to these mixtures.

The partial male DNA profile obtained from Item #8.1 (purse strap) is a mixture of at least two individuals. The inclusion of Item #1 (Mark Goudeau) as a contributor to the mixture is inconclusive.

The partial male DNA profile obtained from Item #1.01 (cell phone) does not match any known standards in this case examined prior to this report and is from an unknown male individual.

Inconclusive or no results were obtained from Item #0006.01A01 (extract from vehicle).

Portions of Items #1.01, #7.01, #8.1, #8.2, #8.3, #0005.01A01 and #0006.01A01 have been retained in laboratory frozen storage.
