REF: BRITISH PETROLEUM

RE: Notice of Lis Pendens
International Maritime Execution

Trustees, Charles C: Miller, Dean Arlo: Arp, Joseph Edward: Casey, Jr., Percy C: Helmer, James: Tucker-Bey, Randall Lynn: Harper, for the formally abandoned republic The United States of America, speaking for all The One People, Sovereign in our own right as recognized by The Crown's prior obligations now present facts, truth, and claims for acceptance or protest before the Entire World.

Our presentments here constitute international notice to be made public under Human Rights and Humanity's right to protect its collective self against trespass and theft by acts and omissions cognizable under International Law and International Agreements enforceable by consent of parties bound thereto. Honor to promises made is the only credibility any governing body requires or holds in order to be accepted as authority.

The United States Federal Corporation has abandoned its obligations to those who ultimately authorized its original construction, now administered by a mere commercial entity for profit in which The Crown holds interest. This abandonment of fiduciary and legal obligations voids authority for The Federal Corporation, the United States, to affect any American. Therefore, we the Trustees, having claimed the abandoned obligations to The Good People of America, have also accepted the obligation to speak for The One People for the protection of our soil, our republican governmental form, and our physical health and welfare. We do this within International authorities regarding abandoned property and salvage rights known to be obligations requiring recognition by The British Crown and other international participants.

FACTS

The British Crown is franchisor of all corporate entities operating under or out of Britain and The Commonwealth. Legal title to said corporations is held by The Crown with equity operating position of corporations held by agents under corporate charter whose management and stockholders are subject to Crown authorities. Thereby all acts or omissions of said

corporations are attached to The Crown through license and provably so by taxes collected on operation of said corporations.

The Crown holds ownership position in BRITISH PETROLEUM in conjunction with partners through interlocking directorates, disclosed and undisclosed.

The Crown has received benefit from multiple sources related to operations worldwide of BRITISH PETROLEUM, its sub corporations, partners, agents, assigns, or franchised operations.

BRITISH PETROLEUM'S acts and omissions have resulted in chemical and biological toxins being released into waters affecting The American People and the World's People and Nations.

BRITISH PETROLEUM'S failure to act to prevent toxins, poisons, benzene in particular, results in crimes of international consequence:

1. Crimes Against Humanity:

- a. Inhumane acts of character to intentionally or negligently cause great suffering, serious injury to body, to mental and physical health; and
- b. Persecution against The American People, a political body, said persecution universally recognized as impermissible under national and international law; and
- c. Odious offense of serious attack on quality of human dignity, with grave humiliation and degradation of massive numbers of American Sovereigns, Our culture and commercial freedoms to contract or not contract.
- d. Atrocities wide spread by uncontrolled poisons tolerated by de facto corporate authority, rising to inhumane acts believed to be a widespread and systemic practice, a pattern of inhumanity.

- e. Systemic attack directed against a civilian population in furtherance of corporate policy and profit taking, with disregard for the consequences to human, animal, and plant life.
- f. Systemic attack on the rights of a free people to freedom of speech and press by barring access to news media and threatening citizens who speak to news media.

Each proved by BRITISH PETROLEUM'S failure to provide adequate safeguards, a corporate culture of disregarding safety procedures and emergency protocols, and grossly negligent and inadequate attempts to stop toxic poisons from affecting humanity. With further proof of refusing to accept and implement proven methods of limiting spread of poisons and toxins and no attempt to clean up or limit damages done from day one of so called "accidental well head failure".

2. Crimes Against Peace:

- a. Violation of international treaties, agreements, assurances, amounting to aggression in the nature of Toxic Chemical War, as evidenced by reckless failure to initiate responsible planning, or preparation of common plan, to prevent what All of Humankind knows to be a wrongful act.

Proved by failure to act with common prudence before and after the so called "accident" which is so commonly understood that no careful person would allow such toxins to be released into waters affecting a whole ocean.

3. War Crimes:

- a. The wanton destruction of cities, towns, villages, societies, and cultures by a mode of devastation not justified by any known or recognized military or civilian authority. Proved by the closing of access

to public waters held protected under international law, national law, and local law. Said closures resulting in the devastation of a whole economy, which places those Americans affected in the involuntary position of prisoners subject to forcible transfer, and further, a relocation of a qualified known regional population, a unique culture.

Thereby; BRITISH PETROLEUM has acted by conscious or negligent aggression as an invading organization under policy of commercial value being paramount over Sovereign Americans, Our soil, Our way of life, now executed through spreading or allowing to be spread, vicious poisons, chemical toxins known to kill and otherwise devastate life in all forms on or of this Planet Earth.

BRITISH PETROLEUM'S private acts -- now rising to the levels of acts in nature of war unknown to civil society and international obligations binding all parties who act in international forums or affect said international forums -- are now facts.

BRITISH PETROLEUM'S CORPORATE CHARTER DOES NOT AUTHORIZE IN ANY MANNER WHATSOEVER:

- A. POISONING OF WATER, PARTICULARLY LARGE PORTIONS OF THE OCEAN;
- B. CAUSING SUFFERING OF PEOPLE PHYSICALLY OR MENTALLY BY POISONING A HEALTHFUL ENVIRONMENT;
- C. VIOLATING INTERNATIONAL LAW, AGREEMENTS, AND ASSURANCES;
- D. COMMITTING WIDESPREAD DEGRADATION OF HUMAN BEINGS AND THE PLANET'S ECOLOGICAL SYSTEMS;
- E. COMMITTING TRESPASS, NEGLIGENTLY OR OTHERWISE, UPON OTHERS' PROPERTY, IN PARTICULAR SOVEREIGN SOIL OF TEXAS, LOUISIANA, MISSISSIPPI, ALABAMA, FLORIDA -- STATES IN UNION, MEMBERS OF THE REPUBLIC The United States of America;

F. COMMITTING ACTS, BY NEGLIGENCE OR OTHERWISE, IN THE NATURE OF WAR, THE INVASION OF SOVEREIGN SOIL AND POLITICAL VENUE BY ALLOWING CHEMICAL AND BIOLOGICAL POISONS TO INVADE SAID TERRITORITES.

G. COMMITTING ACTS, BY NEGLIGENCE OR OTHERWISE, RISING TO CRIMES AGAINST HUMANITY AS ADEQUATELY DEFINED BY INTERNATIONAL LAW, TO WHICH BRITISH PETROLEUM IS SUBJECT THROUGH CORPORATE CHARTER ISSUED BY BRITISH CROWN.

Wherefore, We the Trustees for the American People, grantors, bailors, and beneficiaries of all political power held by The United States of America republic 1781, as founded 1776, do state our findings on behalf of The American People and People of The World who are also attacked by death causing substances.

ASSIGNMENT and ATTACHMENT OF LIABILITY

The British Crown as franchisor to and for BRITISH PETROLEUM is ultimately liable to The American People, and People of The World, by failure to supervise Crown property, BRITISH PETROLEUM CORPORATION, in its acts of trespass in the nature of war, and acts upon Protected Persons, The American Sovereign People duly recognized by The Crown through and by international obligations known to The Whole World beginning 1776 and still current for enforcement purposes.

The Sovereignty of The People of America through its only legitimate international agent, The United States of America, republic union of states individually holding The One People's properties in the form of political will duly assigned and accepted under Constitutions constructing said States, now lodge LIS PENDENS BEFORE THE ENTIRE WORLD IN THE SUM OF TEN QUAD TRILLION DOLLARS, current lawful funds for current damages, contingent continuing damages for trespass, invasion by chemical and biological agents released by a private Crown Corporation, BRITISH PETROLEUM, in the nature of overt act of war, outside formal declaration of war issued by franchising party The Crown of England, a recognized Nation's head of state.

Lis Pendens is lodged against any and all BRITISH PETROLEUM assets worldwide and all stockholders' assets worldwide, for authorizing, or negligently failing to control, personal properties represented by stock positions; and for authorizing the corporation BRITISH PETROLEUM to act outside its corporate authorities, and The Crown of England in all its assets worldwide for allowing its franchised agent BRITISH PETROLEUM to commit invasion into another Sovereign territory, terrorize its people, poison the air, land and water of said Sovereignty through acts in the nature of war crimes, crimes against humanity, crimes against peace of The World, chemical and biological terrorism in knowing violation of International Law, Treaties and Assurances.

Claim pending is duly filed before other World recognized organizations as a matter of record under rule of First Claim.

Claim pending is open to any American under Affidavit duly sworn, obligations by Crown's prior pledges to recognize The American People as holding equal standing. Crown's obligations beginning 1215 A.D. to provide all process due in open public forums when the international issues involve Crown integrity to administer to and for its subjects, such as BRITISH PETROLEUM, are called as due and owing.

Trustees cited above present this LIS PENDENS for International Maritime/Admiralty Execution under the knowledge that as Authorized Representatives to and for The American People's Sovereignty we act as The Nation, The United States of America, republic 1781 as founded 1776.

Thereby any acts of harassment towards Trustees or any American claimant will be deemed an Act of War.

In the event The Crown believes our positions and authorities are incorrect in any manner, please bring such challenges forth or forever be silent and live up to The Crown's obligations. Challenges to our statements and authorities are required to be supported by legitimate

documentation. Fraud in the presented challenges if any, will be recognized Before The Entire World as what they are and be named as false.

The ultimate judges of these presentments are as always, The Court of Public Opinion, now being approached for judgment via worldwide web. Judgment by The American People is a direct order to those governing bodies operating from and under Our consent either tacit or qualified, inclusive of claimed authority, never verified or ratified, to speak in and for our good names.

Done this 15th day of June 2010.
