

THIS IS MY JOURNAL I give it feely To EVERYONE To INTERPRET And SHARE
To understand MY Whistle best You must READ It for yourself Apposing Blowers are loud
I use 'ALL & Everything & They' It's by these exaggerations I expose The Masters Lies
EX: Of course I'm bitching about America But NO ONE Loves this country More then me

STOP Print and Pass this out to everyone ASAP I'm not playing This is IMPORTANT You
should at least download it Lest it be disappeared from your mailbox Read them all They are
Pieces of a Great and Ancient Puzzle They need to be Studied Discussed and Carried Out
Whatever you do Keep reading There is so much to go over And I've proved my point well

Everybody Free's Stay with me for a minute I'd like to go over How and Why I think The
world is shifting now SO I'm telling you this From an Outside And an Inside point of view
When I do 'preach' 1 on 1 It seams That I know all the answers When it comes to 'real life
situations' REAL Because you have to go thru these things To understand them No text book
Is better then life experience I know the truth about myself Because I used to be a liar And
'most' of my lies Were usually to myself Once we figure things out We're able to grow up

BUT if that's not enough Would it make a difference If these points of view came from
someone Who has heard over 99.314 times That 'You were the smartest person They've ever
met' Or that 'They always hear You say the smartest things' The truth is It's about 50+ I use
a lot of metaphors And I'm admitting now That I've made up A FEW lies here To protect
other's interests But in these documents 99.314 of what I say IS THE TRUTH Even though it
will sound Like the complete opposite Of what you've learned Which was all a total lie I use
pi-ish Because 'these liars' use pi-ish But 'to them' pi means Making things up And then
presenting them As ALL sides of the story Not just to Circumference us all Inside confusion
OR To influence our future motivations It's mainly to HIDE the scariest realities While they
use little 'scares' Coming from all angles To keep us blind To the real story of Our Masters

I'm not a writer When I started this art It was only for a record For when I was Starting a
bunch of business's and Building a bunch of custom homes Along the way Yellow pads were
filled with all kinds of Ideas Complaints Oddities Understandings Solutions Loves & Plans
I've always been The creator and planner But I'm not The strongest operator or finisher

Crazy is as Crazy does I need your help To create A New Precedent for A New United World
More crazy I'm also claiming to be A Spiritual Leader AND An Encompassing Advisor
Fighting for The Freedoms of ALL people And I'm thanking Lee Iacocca for the nudge
And I'm thanking Obama & Romney & Both of the political parties For the competition

Politically I lean toward Liberal thinking Of a Conservative ideal And since I've listened to
everyone's side I've fell in love with The advancements of both That can only come From A
New World Order BUT BUT BUT 'THIS' new world order That Our Masters are planning
for us Is NOT A GOOD ONE I love the picture in my head Of the Ideal Society BUT BUT

BUT Not the one That is forced down our throats Right now It seems That something is always holding us back From Real Hope and Change SO I looked behind their scene's and I saw That all these Salesmen of The New World Order Are Total Tools Their actions are That of A bought and sold commodity FOR The 'whatever' secret society they were bread into And even though I don't follow any individual conspiracies I know we are in one They are What's wrong in the world They are Why imperialism is OUR shame They are The Real Terrorists AND Just so you know The Man is NOT to blame The Man really isn't The Man

There is One answer To all the Questions Issues Problems of the world You may think It's money But as always Everybody is half right It's because Everyone has yet to learn The most important stories of all That 99.314 Of ancient oral stories discontinued When man started writing So I've spent years studying What has really brought us To where we are now As a believer That a new world order Is the key to peace I also believe That the current direction is disastrous My only activated resolve Is to make This New World Order Free For and To All

The Nuts & Bolts of this I've always felt that These ALIENS from ""outer space"" Could be Natives To Our World and I've always assumed that The Pyramid has more then just a TOP It also had a beginning My conclusion from Years of "every type" of RESEARCH Points out that EVERYTHING Is just a mere cover story For The Hidden History Of OUR MASTERS

Meat & Potatoes If you can't Buy that story yet I understand It was hard for me too Until you see 'These Aliens' Rip the insides Out of a 4 year old blonde haired blue eyed little girl You have NO CHOICE But to Just believe That The EYE represents Those of The Reptile Race

The worlds first secret Hidden within 'The Order' Was to serve these oddities Who've just evolved 'us' Then by godly orders New Families Nations Governments Formed into sub-secret societies Franchised by The Serpent Order To CREATE and Distract from our ancient knowledge ASSUME that All Sides of Every Argument are Owned by the SAME Single Secret Society The only argument we own IS The resistance To our usually planned history

Side note: It probably doesn't matter Because Nibiru is almost here and This will cause enough destruction To give them A starting platform for the 'real take over' Of our freedoms Both of these combined Will result in 99.314% of us to die off There is NO DATE To argue about It'll be here soon enough BUT These "aliens" Who will suspiciously show up To 'help save us' and Claim to have come from Nibiru CAN NOT be trusted They are the biggest liars of all time The real SATAN'S from our past Their 'alien planet' Doesn't have Never has AND Never will wave life on it It's just a small part of The big lie! Imagine 3600 years ago After a huge flood and Now these 'gods' from 'a planet that just passed us by' Show up here suddenly (their caves were flooded) To help us out with new knowledge Of what we'll need to survive FALSE What they did is Set us up into slavery Using Gold Royalty War and Our Planned History NOW Imagine our 'fine leaders' Not prepping us for this danger As we die unknowingly While they 'live' in secure vaults This is why This history is hidden from us! Wow interesting I wonder why Nibiru is underlined in red Like it's misspelled or something It was only THE NAME OF 'Our oldest God's HOME' Isn't it odd that The Masters are in such 'denial' over this planet's existence? Like 'this story' is being ignored for some reason

FACT: 12-21-12 Means nothing Most doomsday prophecies Are based on Nibiru's "passing" There is NO destruction date! So Don't Panic! What we need to plan for Is the 12-36 months of smaller destructions That will cripple ALL nations and Leave them without any salvation!

Everything is and Always has been A cover story for the times When our solar system has another 'mini solar system' fly thru it Which causes a period of destruction and rebirth And these lizards Who are Probably wearing some really cool looking space suits They got from Hollywood Will try to sell themselves as lifesavers Instead of what they are The Destructors

Here's How It Went Down

Around 8-10 thousand years ago (Even the second tier has questions about the actual time, pre history) We went thru 'genetic engineering' And we became able to process thoughts differently From a new 'type of flow' within our brain waves Just different enough from the ordinary animals 7200+- Years ago THE MASTERS Island (planet they said) blew up (sank) And they were out of commission for a while The human tribes had escaped (because many 'Noah's' were commissioned To save as much as they could carry on their boats) Got busy on their own In new found lands In their different regions One region was an important port to the Reptile-Oceanic-Native-Aliens (They mostly live under the sea Or in caves) It was where Sodomy (hint) and kid snatching was rampant Where all the "elites" could go If they praised money and Practiced debauchery and murder blood lust This was the Kennite (CAIN-itte) people from the bible They were an 'extra rich tribe' (created metal working, writing, and carried with them ALL the secret knowledge passed from Their Masters) They basically made and still kept the gold standard for us Then A Chief ZUEZ (a real king of our past) Had finally had enough (I imagine he finally had the thought that "These assholes aren't God's!") And people started to rise when stories were passed around that The Water Reptile Race of intelligent beings Who are acting as OUR God's Were doing all sorts of evil things to us and our kids (like they do NOW) As their clinch of power over Us our Kin and Nationalities "Zuez" Who's previous king Had come from this region Rallied mankind and decided to fight these 'Devil-Types of many sizes and specie' After these ages The stories of his conquest had to be tweaked So they made him into a God and Gave him a cool back story After that the scared men of the world Kicked the ass's of the Neanderthals Because they couldn't think 'humanly' either They were mostly 'half+- knowledgeable' aggressive apes Who were fascinated by the use of tools Instead of masters of them And were only similar to Let's say 'A monkey smoking cigarettes or an elephant fighting' The remaining Neanderthal-creatures Went back to the forest to hide in safety And are the ape-men Bigfoot's Sasquatch clans That we hear about now (sorry spell check cant fix it and I don't have internet) But it was too late for the ORIGINAL kennites (Cain's tribe) Their number was up They were forced to go deep underground And now only use The Nobilities Warlords Religions and Secret Societies to control us BY The power of money It's always been about the money It's our biggest link in Our chain of slavery And If you really want freedom from the original sinners THEN Money Profits Elites and their manipulations there of Must Not Exist

Well wouldn't you know it There's ONE idea that eludes us all It's never mentioned In any movie or T.V. show or public literature And it has never been studied Conveniently An idea that's closely guarded By a sprawling octopi Never discussed outside walls Or bellow tiers

Our first histories And everything that goes with them Has to do with 'this particular planet' PASSING THRU our solar system And the blah blah godly aliens blah blah That came from it WELL We have some awesome telescopes now AND It's definitely close enough to be seen from one SO Why isn't anyone allowed to research it? To see Once and for all If there is any life on it Has NO inquisitive scientist OR ancient times historian EVER thought to look at this planet Nibiru??? Too see if it housed any of our 'ancient aliens' That MOST of our ancient societies Have talked about in their Oral Traditions OR Even put down In their Written Histories???? Instead The New World Order has chosen MARS as our understood 'Alien Planet' HA HA HA And do you know WHY they picked mars? I DO! I heard it from their mouths myself It's because They don't want us looking into Nibiru's falsity!! They are Wanting to make suckers out of us all again Just like they did 3600 years ago Don't fall for it this time OK Expose these demons for what they are They are Our living hell on Our earth

Ancient times THIS Ancient times THAT If you ignore the secondary stories It becomes clear There are creatures on land Selling themselves as GOD'S And mating with our women So we fought big battles Against 'unusual beast' And 'past god's' lead us to freedom NOW Don't try saying That it's just a made up 'God story' from ancient times Because NO DUH That's MY point here Remember the Satans (or reptiles) Have always attempted to convince us of these distractions They made new stories Like Adam and Eve as They erased our real stories/ideas from our past Like OUR ORIGINAL stories of Adam and Eve (Which used to be about Not planting your own food You should ONLY get it from Those who said They were your God's) The flying lizard native aliens reserve army was never far off They were even able to be seen As 'GOD witness's' for New Lordship's Rite to Rule You've seen those signals too Chiseled on everything One way to create new his-story is to Combine conflicted ideas Into new subjects altogether Do not let these lizards separate their reality By a shuffle

They have infiltrated everything Even the oldest testaments stories Were to big to just ignore this There had to be a cover up For the 'Reptile God Story' So they tweaked it And combined it with another ancient story That was about agriculture Into a new 'idea' For our first books of 'Religious distractions from freedom' The Bible steered us away from The real 'Good-Energy-God' connection Making Elite Royalty as God's When in fact Were all evolved from their engineered bloodline My Elite Friends That was the first cover story/lie From 'whatever secret society' They posted you in at that time Can anyone guess it? They didn't just mate with us And then 'poof' A different race of kid popped out They did although Mix in some of their genes And now EVERYONE is a little more advanced Because these 'advanced humans' Were very favorable for future 'mates' Hence that scientific term I can't remember right now lol Why do you think They're dumbing us down now? Because Humans Kick Ass!

The problem has always been secrets How can you say You don't believe in any conspiracies If you've never looked into What's being said inside 'their walls'? Sure there are distracting agencies Like MJ-12 and The Blue Planet Project and The Men In Black and Our Denying Governments That keep us looking In the same differing directions That have already been laid out for us to believe Similar to the propagandized versions of 'outer space aliens' in our movies Isn't it interesting The Show Conspiracy Files is brought to us by Smart Dog Media

They have had a hand in Every nation's rising and Every nation's failing As experiments for our bleak future IN Their perfect world society OUR RULE The past was only A TEST And from these advancements of ideas The Money Families and Lordships Were to CREATE New ways for countries/companies/agreements/wars To covet US In their respected regions

Let me explain the UN in easy terms They praise 'evil beings' Look it up! BUT These aren't A type of 'godly being' Like what we understood the mystical Satan to be What they really praise is 'true evil' Evil reptile lords Who've put human families in power over us The UN will force you to bow to them And believe me They are evil BUT They're not godly at all

It's easier to understand If you can assume that Everything INCLUDES Everyone All governments and Their agencies All political and Divisional parties All corporations by stocks or unlawful means All the LAWS from every angle All the religious readers and institutions All banking and finances And all the old and late "feel good movements" ARE ALL lead somehow By members of tiered secret groups Like the CFR CIA or 'The Ancients' There is no doubt America Is being led into war By an outside interest If anything WE should consider ourselves as The worlds terrorist Because The Masters are ruling America ALL this imperialism Is just another franchise for them Imagine that; WE'RE the bad guys

Please remember That I'm not saying The people who work for these agencies are evil! We've all heard the good & bad things about certain programs for children Mainly the honest initiators Have lost control of these agencies Now No One Is in it for the greater good of kids Just think of the boys that Sandusky and Savile didn't abuse Saving them for the higher-ups Aliens need these kids too Eating and Torturing them Is in their connection To their Evil God

The conspiracy is It's all one conspiracy With no need to look at the individual conspiracies If it was (and it wasn't) Just pissed off Muslims who blew up the world trade centers It's still the new world orders fault For pissing them off enough To protect themselves Just like Japan did When 'The correct version of history' had FORCED Them to attack us in 1941 Because WE Were already tyrannizing them Every villain The news has sold us on Is only fighting for their And ultimately ALL OUR Freedoms From The Secret Enemies who lead America

Let me give you another point of view That there are no conspiracy theories! We would still have 2 sides of news though The republican side That is always pointing out The lies the democrats And the democrats side That is always pointing out the lies from the republicans If there are NO Conspiracies Then 100% of the citizens On BOTH POLITICAL SIDES Are being lied to By 'their' democrat and republican leaders And the entire bought government Do you see That there are NO CONSPIRACY THEORIES There is only One Conspiratorial Fact That the money from secret elites is Buying and Tricking our elected officials into lying about everything 'real' And these bought off filth Are going along with it So they can be elite As it turns out None of our leaders Are leaders at all If they can't even control themselves!!

I'm creating a Open Secret Society of these understandings The good news was given to you And instead of just flaunting yourself Use attraction And welcoming promotion To bring it to more people Remember that We are only now Better Educated & Informed of this So Recruit Your Friends Family News Police Military Government Officials Throughout the Free World

And once you find out that The Bible was a plan for history And that Nostrodamus was a mere Reworking of The same ole' plan Set down by Our Alien Demonic Reptile Masters You'll see that Everyone is half right By still being completely ignorant of rightful theories Like trying to blame 911 on our government It's completely wrong But still half right!! The official story should be That our own freedom loving government agencies Didn't blow up the twin towers In order To bring us into tyranny When it's the secret societies that did it!! What needs to happen is Instead of having surveillance on A Free People Like it's laid out in the new world order plan We should have 24/7 microphones and cameras On every single one of our leaders Who Work For US Everything is the opposite Of what reality should be

I took my oath as a Marine very personal And I've never broken my allegiance to protect my country Sorry to say But our constitution was meant to be Used and Destroyed When 'The Masters' patsies first wrote it These first battles needs to be fought without your guns Leave them at home Use only to protect yourselves IF There is a war OR They start coming after our rights OUR FIRST FIGHT WILL BE NON VIOLENT The rest of us 'believers' in the ideas of freedom Need to STOP Praising these 'ideas of money' But go to work And always help out Show them that Freedom is more important Then 'Their Ideas of Gold Enslavement'

I own ONE gun It was my fathers black powder pistol My mother gave to me after he died I don't even keep it loaded So I guess I'm screwed If I'm a victim of a home invasion That is Unless they give me a few minutes to load it! SEE I'm not a 'prepper' To most everyone else There are 'other known enemies' And to deal with them We must have 'correct arguments' About gun control Since each side uses falsities to better their stance They dispense with the real issues that we should be having about our gun laws I realize that the times have changed And this is important to a lot of citizens And In the same way That America didn't want the tyranny of King George's rule Can't we at least all agree That we also don't want the tyranny From the numerous gangs that want to rule us too? I believe guns don't kill people I believe that The irresponsible do I believe in everyone's right to own and wear weapons If they prove responsibly first But I also believe That automatic weapons Should be kept in public armories To keep them from being easily stolen by gang members I believe Holder gave weapons to drug cartels So America would now have it's own terrorist to deal with And so They could kill off the other cartels That weren't "participating in our governments money laundering and drug running profiteering" This order came directly from the top So there will be NO punishments For their treachery Only a blow to 'their' ideals of Hope & Change

Although it may seem Throughout my writings That I'm critical of 'our government' and blaming things on them BUT I'm not I know it's not their fault They were tricked Like us

Let me talk about war: Once you figure out that All tiers from the TOP secret society Go into all directions And once you realize that Everyone In All Governments are under some sort of tier You'll see how The Cuban Missile Crisis was basically Just a show To scare a secure people No governments really own/control these weapons Do you think The World Masters would give that power to us slaves Across the world Everyone thought they needed these weapons ALL fire was fueled By OUR Masters To build it's own military AND To make weapons that could blow up objects from space That could hit earth at Any unknowing time

To all military/cia/policing officials/gov't etc Get on the side of freedom YES This means you should go against Those (who run our government remotely) Who will put us into united slavery To you 'hopeful elitist' Pick freedom over Being bought with offerings of individual safety and gold You Will Never Be Safe Because they will never see you As a part of them

My plan My single action of coup My offerings My writings My opinions This is the least I can do To Serve The Free People of the World SO When it's called 'Whatever they come up with' Or even TREASON Just know that I'm good with that Because I love YOU that much

Hopefully you will learn from Sandy That FEMA was created and Will be used to 'round up and imprison' Believers of the constitution Instead of the helping hand That it was sold to you as Same cost and training BUT You'll see differences When there's No food Little help And only televised compassion Tyranny has always been about saving money For the rich

My one And only 'nuke prediction' Is that There will be 5-8 of them Which are already 'planned' To hit The United States All depending on The season and The actions of each individual cities/states/region Mostly along the south Speaking of the south They've always Only done what they seem is right Defending OUR America from an overseas banking union society Who torched their crops In order to Start a secession And a war The new world order wasn't against slavery So much as It was bad for their Bankers Who wanted to enslave us all

The southern states will host The major regions of the war As for the northern states DO NOT let your contribution go unfelt This war is about Blind Culture vs. Evil Culture It is Not about divided culture or divided races It's mainly about taking away our freedoms I watched the trailer for the new red dawn movie It's not going to be anything like that!

I've learned that Hardly any of the money families know these truths They're only on cruise control To obtain more booty It's the secret societies that control these franchises killing OUR world Thru these stepping stones AND Under the gaze of the gold headed secret eye

All these scandals inside government and corporations Are all handled inside the secret societies Not every member knows BUT They still wittingly scam Bread from our table

This is important Research has shown me That soon after the election A lot is planned for the American People It will end in a rebirth of imprisonment As the worlds head of greedy occultist By selling a restoration of a Phoenix and A lie of a dream You'll never understand Because the news 'was a no show' Everyone who thinks they have freedoms Will have to die

Let me say again There is NO such thing as a terrorist As far as what you understand them to be Since it too Is directed by The Masters To cause chaos and Rule by diversion Just like there is NO imperialism by America 99.314 of us Don't want to kill To conquer everyone

I loved it when the girl from big bang said she was 'Joyfully following her friend to a life of crime' I thought Isn't that true What if there was no need for crimes? What if our societies ran on responsibility To and From all With no necessity to rob or starve or kill Nativology There is a perfect society Inside my head I've written about it And it can include everyone

My nativology Where I came from There were Cowboys and Indians and Mexicans and Mormons I was regular minority I got to know each group well How different my old ideas were then my new ones Life made a decision for me I lived with a Mexican family in high school And all I saw was intense family love and care Just like everybody I'm sure But they do Act as they believe They prove care for each other And while everybody is competing in life And having to go thru difficult situations It's really not about race And everybody knows it BUT Why is the government selling it like it is The same agencies that rile the kkk Are sending out their destructive ideas to The black community leaders also All our leaders are working for The same 'main' secret societies As for the supposed 'white devils' Every society Has been tricked into labeling people as 'terrorist' of some sorts Except the hidden drivers of it See how it all works Divide us all To conquer us all Has been the plan of History LOOK at Obamas actions Look at his executive orders He is destroying us Worse then Bush

I have been to the bottom of the economy more times then most Because I've also been 'a little higher' in the economy more times then most I've had many business failings and I've lost a lot of my own money And two others (sorry about that) I've been lucky to come back time and again To help others On NOT how to run their business Everyone Once they have a taste of 'money greed' Will cheat to get more Even their own consciousness Is no match For times when They need to be better Than everyone else To justify the reasons They think they earned it It bugs me when the rich Say they have money cause they worked real hard for it Believe me Not many of them Ever worked harder then me And they definitely didn't work harder then Those doing manual or factory or service labor If they didn't make their money By having a great and unusually new idea Then 9 times out of 10 They cheated somehow Or were lucky to find a way To make it work for them Hard work does pay off But that hard work shouldn't Also bring us nothing in return (I know we got paid No duh Keep reading)

Our capitalist society Especially the way our government runs it Will leave 99.314 of us With nothing in return (Remember you still think The opposite of reality When it comes to Who is running our country And for what purpose) There is a new way To look at how The World COULD Work and It goes against everything you've ever thought ONCE You have these thoughts You'll see That a little sacrifice now Will leave a better world for your kids I'm not talking about communism or socialism or fascism Or any of the ism's that the New World Order has brought us in the past I'm talking about A One World Tribe where we Not only take care of each other But we take special pride in the way We handle our contribution toward a peaceful and flourishing World Community! Pretend that right now There was NO money NO debt and NO reason Why we won't be taken care of In our dying days NOW imagine If everyone 'wanted' to do there best For this New Society (Which Without any current arguments to go by I feel that everyone would!!!!) The real differences are We'd all get to be elites We'd all get to experience life's offerings And we'd all Only have to work about 1/3-1/2 Of what we do now I hope I'll be alive for this transition But I'm certain that

There is a way Equality for all And Responsibility TO and FROM all Right now Our societies are more like 'You have to do this OR ELSE you don't eat' And that's why people don't want to work But still want entitlements Instead of what it could be Where everyone thought of it AS "This is what 'everyone' does To contribute "our own way" INTO THIS SOCIETY That is for all of us 'To share' Where even a fast food manager Can have a stress free life With his family In his home And can even spend a few months in Europe every year A system can be worked out But ONLY If The money elites don't rule Any of our world!!!

Although I could have On many occasions I have never taken any government assistance I've also Never filed for bankruptcy After I ran a few of my many companies into the ground It didn't feel right to me But then again I'm not the normality What I did do Was get sick of the government regulating the hell out of me So I stopped making money For them to take AND Yes a few years I didn't even pay tax On what 'my friends' were paying me To HELP Them

Start thinking and communicating about what life would be IF Everyone was free of GOLD

As for profits Don't take them Don't give them A war will always be fought If gold has power and worth Fight for your freedoms From those who use gold to oppress us IF there is a war Everyone in the world Must STOP using money It is the only path to freedom Watch Learn and Preach about what's really going on Especially to the police Stand with your backs to them As if they have your back DO NOT affront the police or military Let them watch out for you Keep calm Don't riot They will protect us from the crazies Do not give them a reason to think We are the crazies KNOW your rights to peacefully protest IF there is any violence

IT was caused by The Tricksters Ordered BY The Masters The news is going to lie about EVERYTHING Expect it Here's the thing: Who ever is in government When you read this Will be passing laws against ALL OUR FREEDOMS (they may not know it, or they think it's for good) Their actions should really be slowed down and talked about To give us the real ideas and happenings Since NONE of the news does They will do HUGE things against freedoms Worse than an oppressor Worse than When you never heard that England had the same laws as Hitler about the Jews Read my history findings Sorry about the cut/paste NOW

Let's get to OBAMA I'm disappointed in his hope and change He is causing everything to happen way too fast Sure he shines like a new penny BUT has he done any research On the ramifications From these executive orders That his Masters pay him to write NO He Didn't!

The news's job is To keep us on opposing sides and They HAVE to cause confusion and lies Thru their childish sentiments To promote 'their sides' leaders As always The lesser of two evils That's where The Masters want to keep us On opposite sides In the middle of confusion

What we need is At least 1 political party that wants freedom and responsibility To and For the free people NOT Just 2 That only want 'their proven tyranny' It only seems like America is a free land now Because The Masters are still allowing us to think this way The American Ideal IS Already Gone! Get yourselves over that fact! Make the IDEAL even MORE FREE

Every body is half right All the ancient stories Do all add up Into a truth about history And no one has to be half wrong either They're only going by what they've been told by others

Let me state that Although I don't have a hot whistle to blow Pinpointing every detail on a certain subject What I do bring is thousands of hours Researching thousands of years of sorta-facts OH And I've seen The EYE's View From tallest point As seen by The Masters That Once you understood it And your brain totals itself out You'll wake up to a different solution for "everything's happening's" In our small universe It's good to know all sides of history science law economy business money Don't limit yourself now By sticking to your 'preprogrammed points' Make a decision to understand The View Point of the Top Tier They're just better than you It's Their God Given Right BAD-GOD =aliens+gold+power Christians Keep loving Jesus He was in it for GOOD-GOD =salvation from gold & power

I Love EVERYONE I'm lumping all my knowledge of history and Bringing back An OLD RELIGION One about Once we were all able to freely love all mankind Thru VERY REAL and Uncharacterized GOD/feelings And the only 'practiced religions' were those That can be describe as EX: Gardening Reading Riding This-That Playing Golf lol 'whatever else' THE MAIN difference is that I'm introducing you to The truth of a connection to a GOD/Energy Instead of one 'Of The Reptile Masters Making' GOD Needs NOT to be Religiousized into any character form EXCEPT for The love you put into IT! It's all about The praise of Good OR The praise of Evil In our future society Praise GOOD/GOD The praise of evil Causes you to get dismissed from life You don't need to hate anything Enough to be an ass about it

All the proof you need is here With more to come One thing I do know for sure Aliens ARE from HERE These lizards And Not A 'named' God or evolution Created the first humanoids From them We passed thru a genetic and knowledge advance Ever since then We have been the main secret of The Order Of The Serpent The worlds first mystery cultist However they didn't create life As you look more into Science You'll see that some things are often hidden from those researching How and Why life came about It's time to just admit IT WAS GOD In the way As you would understand that Good Energy Attracts The Good Energies that are Attracted To It LOVE CREATED LIFE The proof is in Water Research the knowing water Like when you STOP Taking vaccines 'Your' immune system Will WANT TO work hard!

I wrote the majority of this opening article Over one weekend And by Sunday afternoon my revelations over how deep to go into everything became clear SO I cut and pasted a lot of it Into a 'spiritual' document It is important That you read it With an open mind It's titled This Weekends Spiritual Experience It's about benefiting From a close 'relationship' to Energy

As for my religion Humbly It's just as valid as anyone's It also jives with science YES this same science That has NEVER said 'There is no God' God is actually proven If you go far enough into learning about science!! And remember Scientist are similar To church leaders Because they're also Unknowingly under the supervision of Our Deceitful Masters Gold Eye

Religion shouldn't be 'Believe in us or Go to hell' My 'idea' of religion Encumbrances them all If you want too Mine is about Forming a true 1 on 1 relationship With a higher power then yourself I studied 'their sides of the story' Incorporating the appreciation and Love I have for All people Godly or not But My God fits better When IT doesn't have a personality Except for the one IT made personally with me I'm claiming the Love of God back from 'Their multi-monopolies' You praise Good-God OR You praise Evil-God As it was pre history When God was "The connection You made to IT" And when religions were as they should be The love and appreciations in 'life's activities' That you shared with others Like crafts alchemy cooking singing competing whatever Now movies technology racing hiking bowling Early societies knew God personally (I'm talking about pre-history here, before all the created religions) WE then let these religions steel OUR relationship God's love still grows When we all praise and loved IT At the same time Like when I'm adding my love feelings 'in a similar case' To your love feelings So we can take love to the 9th degree But God's not about rules and ideas of a religion Anything will do When you want a stronger connection We're already all connected to 'the God feeling' God can be connected to by 'practicing ANY religion' So you shouldn't limit yourself By only looking into one IDEA

It says some weird stuff in here about me comparing myself to my brother Jesus I'm only like him in Spirit of God For Man and That we both had to be humble when we went home to family The secret societies stole Jesus That was in the business plan And these businesses need competitors And they run those too All together now Turn the tables On the moneytites

ALL Of the masters of the new world order Make fun of the people Who still believe the bible They created long ago "How could they still believe God sent 'a son' to them" ha ha

My writing has changed a lot I've changed and grown too So I probably wrote some harsh things But because this is my bible and my religion I should be able to speak my churches mind As I find it factual And if Donald Trump can call for revolution So can I So can you

I will be cast as a rogue villain BUT Only by MSM Rush Mathews Hollywood or Whatever government agency The Masters Propagandist will set upon me For 'whatever' 'My Treason' BUT It is my basic expression My Religion Too So I should be able to have all my rights of free speech And this is a speech that needs to be HEARD So place yourselves 5-10 to a corner and start reading If you are rioting or violent You must not be with US I swear if I had the reigns of 99% movement it wouldn't have just been show I don't want to be alone & scared The more eggs in the omelet the better Bring cheese and meat to this REVOLUTION

The election came and went Who can only be proud Of what the presidency is 'supposed to be like'? But I know better Some independents That you all make fun of for being 'crazy' Actually know how this office is supposed to look too But our presidents These days Are more like mere sales associates of America A strict follower of those that command him BOTH sides are just stemming from The Masters Rite They are taken over thru money and OLD AGE secret societies Who own 'our made up news' too The reason To Sell The IDEAS HA I just thought of another doozy But you'll have to read that In another document HA

NEXT If Obama signs another executive order You should all pause a while Until we know why all these NEEDED to happen Matter of fact Do it now Find out now why we are headed to a prison state FEMA is nothing but a 'round up the freedom believers and imprison them' agency Our representatives know it's NOT for our own good But they don't even know why Even when they read it for themselves But they're all fine cuz da money is coming in I like all ideas from the new world order salesmen's too The poor The disabled The social security The whole deal I love the idea of what Obama is selling as the president But I feel that if he doesn't even know the 'slaughtering plan' That he's leading us to Then he shouldn't be the president The irresponsible US leaders Need to find responsibility Hey I'll tell you straight There are those of us Who aren't responsible enough to be in our mainline society I'm not talking about putting everyone in prison! I want all of us to get with the 'Good side of the new world order' I want the best Out of the world's nations And I know we'll get their best Once the masters are put in check And our leaders STOP taking money For their treason

The main proof that 911 was not caused by 'believing loons' Is Oklahoma was proven To be caused by Those who consider themselves Our Masters With no need to look for conspiracy diversions Because we are all in a big one WE need to wake up to that We need new leaders And we need real news Believe nothing from either side The lies only cover for the other lies

As an extremist The Masters General Information Companies will vilify me And 80% of them Half republican Half democrat Will go along with it Because they're either To stupid to look into it Or they are Extremely sold on their side "winning" I want everyone's side to be heard And taken care of But these two opposing sides will never be actually 'in change' Of doing anything about it now It's over for America and we need to start restructuring it We need and want The best out of our politicians Who are no more then good bull shifters Bull shit is not a leadership role Keep your prideful right thinking in check You political fools Don't be on either side Be on everyone's side Accommodating Responsibly should be easy Just look at what we 'all' did in the past for ourselves Don't be in the middle of the road Be on the extreme side of freedom If you want the best from a society It starts with affording even the weak The money will never let this happen though Like everything else in the world Things are changing The old unites states is bought and dead Fight now for Your Freedoms

Accept that There's no reason to fight for The Old Constitution It's used against us anyways You just didn't get the memo YOU WOULD NOT WANT IT AFTER YOU JUST ALL DIED TO SAVE IT! FREEDOM WILL FALL UNDER A PROUD STORY AND A NEW STAR ON YOUR SIDES FLAG! I CAN SEE IT NOW THE NEWS COMING ON AND SAYING AMERICA HAS WON AND THIS IS OUR NEW CONSTITUTIN! RIGHT UNDER THESE BANKS OVER HERE THAT MAKE IT POSABLE FOR YOU TO ALL WORK FOR ALMOST NOTHING! NOW LINE UP IN TWO LINES AND COVER YOUR EYES SO WE CAN DIVIDE YOU INTO THE MONEY HAVERS & THE WORKERS

End your love affair with this countries past When you're trying to protect it The point is To not let those in SERVICE Secretly rewrite OUR NEW CONSTITUTION It will take a war But you're in a war now IT'S HONESTLY ALREADY OVER FOR THE U.S. You need to fight for freedoms now You'll see how when I prove to you that OUR 1776 Revolution was bought off Right before the end They all worked indirectly for the same secret societies Each had a hand in But none knew the whole plan This combined an unknowing fault of treason This country has always belonged to the new world order WE are the new world order The money families knew America was here 7200 years ago A reserved bread basket for the wealthy To make money and then extinguish the flame Just like they've always done When they say WE don't own the U.S. (Even though we do) The secret societies head owns And have leased out 'us' as credit 3 times already Look it up! And we only had a choice in it once

It must stop But there's no way either side can turn that back now It's Institutionalized A running machine about to remove important cogs in the free world I'm the wizard You're the Gollum's Now let's go throw that gold ring back into the fire It's the only way to kill the eye! We don't need to kill the 'steps' under the eye For there will be NO Elites in A FREE society No one but the eye knew the masters plan We built For what we believed in By them And we did our job So I'm claiming that the 2 other debts OUR country leased out on us Is null and void Therefore WE are free from your debt The new world order caused it We should end it

I'm out of touch with regular America now I woke up to real history And the reality of our elections I just can't see how people could still be voting for 'their' side Who are only selling what 'we' want to hear BOTH of the political parties are basically Full of 'middle level' members of secret societies NONE knowing the real plans They don't get far in politics If

they don't get bought by one side or the other They're all just lying to themselves They all praise the same golden eye EACH of the two political parties You people think You belong to Are all being scammed by the tip-top The 'election company' makes a lot of money off of this And we do all the work believing in them Mostly each side thinks that their side should win Because they've been scared into believing something that Just isn't the case I believe everyone wants to do their best When they run for government service Too bad they have to sign their soul away to 'a side' to even be considered for office What you fail to consider is that Both of these parties are pitted against each other that much For one reason So The Masters work gets done For example: Obamacare had nothing to do with Obama BUT Now it's become HIS message So now he has to stand by it Even though it's bringing us to destruction He has to stand by it To save face! Sickening huh? To know it's 'sold' as a good cause But when you understand The Masters real plan You'll see that hope is gone Because he's stuck in the middle of it It's not reality When one of my companies wasn't working out I closed it down I had to save the situation But he's doing the opposite He's saving himself By keeping up these lies This Obamacare is devastating It's A complete money maker for big corporations Resulting in no one getting good health care And death panels killing us off Instead of curing our ailments And all Obama can do is Follow a master plan to divide us!!!

Obviously a very important motivator is fascism Which is their decided upon Rule of the world People owned by The Masters Will never stop Gaining Warring Fighting Killing

FACT: It's not just Corporations That are Buying our politicians It's the secret societies!!

If there was no need for money We'd be basically doing the same thing we are now Except 70% of us wouldn't have to work anymore Which would make the world happy Full of love

I'm extremely conservative and extremely liberal on all social issues I want OUR people cared for and OUR government kept in line Oh my friends There is a better way There is a perfect system out there But you won't hear many preaching about it And It's not the middle You're in the middle Because they have you confused And not trusting All according to plan

EX: I'm for emergency abortions only And in my New Society Idea you won't be getting pregnant until you've 'contributed your way' into the tribe first Accidents won't happen But unwanted babies Will be redistributed and NOT killed off Read I love em love em baby

I graduated a few years late That weekend I started my obligation In an open contract With the United States Marine Corps I knew that The oath I gave would last a lifetime I'm keeping my understanding of it still One thing I do know is We must transfer our constitutional pride To a more free ideal of a society It is over For the United States FACT There is No salvaging

ANYTHING There is only fighting To add our free societal values To the charter that's being placed before us Turn your face From the old accomplishments Establish your pride in The fight for 'Your new freedoms' This is the only way The constitution will never again Be made right Capitalism (cover for the imperialism idea) Will be an outlawed mistake And they will have 'a better way' for us To use 'their money' In their shiny and smiling tyrannical prison Which after looking at in detail You'll want no part of Because you'll be no part of it Remember The Whole World IS And always Was CAPITALIST Fight for freedoms instead

I don't believe The n W o is bringing in The Antichrist I think they left that spot for someone like me to come around and say "There's a better way" Whoever fits this role Will be the demonized antichrist (the "evil" patsy) To fit their plan They know that a new spiritual leader will come around every now and then And his story and life will have to be stopped And rewritten NEVER make another man A GOD or AN EVIL BEING The antichrist plot Is the patsy They'll use to protect us from his takeover We need to make it hard to steel Correct Teachings I'm not an antichrist I'm a man of God I hope no one takes offence Or thinks that I'm bashing Jesus here Our Brother was a great man But he was also a victim of identity theft

After I send this out I'll probably just turn myself in for treason I guess that's what they'll call it anyway I trust that someone like Sheriff Joe will protect a true patriotic American from our real enemy With the masters I'll be dead in a week or beaten and drugged in jail. I do not want drugs I'm not violent or insane I'm actually extra sane Because I know what truth is Its insane not to know the whole story I don't watch the news But I read everything Do that too Read Postrequisite Reading It'll have a list of MUST READS All the half ideas Do add up

Why haven't the CIA picked me up Or why haven't They been here to talk to me I talk so much about the Terrorist Government Evil New World Order or That our government is A patsy to carry out The Masters Orders Sometimes saying it Right in front of new cell phones And other surveillance 'whatever's' And with all those big red flag words Like terrorist or government military guns revolution freedom fighters fuckin politicians I'm really starting to believe The systems security may be braking down Who else are they looking for Other then a guy like me Wanting to start a revolution? Could the EYE-CIA-NSA-FBI-DOJ be wanting this? WARNING: If I've written something That doesn't seam like What I would write Then please understand that I've made a mistake Undisputed facts Aliens are native Gold is bad lol

I loved the studying and writing part But it took years of alone time and sacrifice I've kept busy helping A number of people start or operate their own business's All for \$12 an hour

It's less about Everyone has 1 soul mate Than Everyone can Be a perfect soul mate to anyone

Since my un-vorce I've kept situations where I have 3-5 loves Without any secrets I'm still 'good' with my old girlfriends Even though I was a shy cute kid then I'm Hugh Hefner now Only with ample alone time And no money It's all good I've kept them at distance though They can't go Where I plan to go But I'm very thankful for everyone that's been in my life

By definition I'm a Phenomenonist Example: I just spent 2 minutes on spell check lol I have researched All sides of All 'ideas' and I've found out that sometimes The complete opposite of truth Is the understood reality The opposite of what we'd think Usually makes more sense So Don't be afraid Your life will double But your fears will END Once there is NO Money! DON'T Cloud this talking point I'm not talking about credit cards debt or chip's in your arm!

To finally find more pieces of This scattered puzzle We shouldn't look Only at Each Sides Story The biggest point of view The Third looks mostly at The 'Why are we being led down this road' factor Terrorism sells BUT The Government Is the biggest believer that This idea was sold So their assumed understanding Is that we believe in their 'only sometimes' supported idea When in fact We perceive reality That it's nothing But a cover sheet For their

lies And only those In the closed rooms Don't know the third persons view is more accurate
If you want to be ignorant Like them Then don't look at the All sides of What they're doing
Our biggest issue now Is doing something about it Without the movement being bought off

Even if America stands alone on 'We aren't using money any more' I think We'll be fine
Our country As a whole owns a lot more then just it's land And the people's worth Once we
fight for this freedom Imagine how strong we'd be In One Big Free Enterprise Country Now
imagine The World grasping this idea of Free Society Which is packed with Civil Freedoms
to all And Respectful Accountability from Our Elected Officials Who Serve US. Awesome!

The meaningless ideal For controlling us We are all about to go under a genetic redrawing
With an exchange of life's normality's A new measly person-noid slave is the plan You can
even See the sexes being diminished now There's no need for sex When life uses test tubes

My friends I've been lucky to have a diverse acclaim of friends Most with different racial
and regional genetics then I They are exactly the same as everybody else I've met And I hope
That even they would agree No one is better then anyone And everyone should serve anyone

In politics Everyone is about half right Not because they only believe hype But because
Everyone really does Want to do right by people BUT You'll notice That the news Has to
demonize politicians Because It's Owned and Directed By The Those Who Wish US Evil

Would anyone in the world be against Making sure family guy doesn't come on at 5pm? I'm
all for the right to change the channel But for all the government does For the most accepting
minds and their growth This has to show that it's more about the money then our kids Our
government Nothing against them They're ruled and 99.314 of them Don't know anything
about it So I'm not really blaming them Just as Obama didn't do anything But try his way of
helping 'idealism' They've just been simultaneously lied to Because they don't really have
ties to the other organizations Except thru the cia & cfr & UN Who is like a catch all for the
different governments and corporations and communications (As well as money laundering
and drug running) And only the very tops of these agencies know what's up Obama isn't
even allowed to read conspiracy ideas He probably thinks That we are headed in a good
direction Just like Hitler was To his parties bosses Hoping for the best Using blind eyes

It doesn't matter who wins the election Don't let it distract you From reading important
documents And learning reality I will show you it doesn't matter who wins the elections.
And about the founding fathers YES they were great American freedom fighters But they
were duped into unsound advancements By their secret societies Thinking it's set up for us
When in actuality It was set up for Our Masters They will always have control of the United
States While we only squabble over sides To hire and fire 'secretary governments' every few
years IT'S IN THE LAW Rome didn't fall As you'd heard or understood The advancement
of law and rule and money Went to new areas To give them money So they could set up
everything Into THEIR LAWS TO ADVANCE THEMSELVES While we think it's Our
Laws That Protect US. I Love The Idea of Real and Solid Laws for the betterment of
everyone birthrightedly Rules and Not Anarchy are the key We are in a money anarchy It
doesn't work for you If you don't have money We'll never have equal laws if elites exist

When I say No Money I mean Free trade to and from everyone No debt No profits Just Love

If war happens I hope I rushed it It's our only chance Everything is already against us Including our puppet government It doesn't matter What country starts the war It's The Masters who caused it And it's planned to end here in a devastated USA This war is to Take away our constitution And move us into A Fascist Hybrid of Control and Occultist Rite

All you Supposed do-good democrats and republicans Ask yourself How is this Ever Going to be a better New World Order When civil and free liberties Are not being allotted to everyone The only shame is On those Who knowingly followed it! Sorry to tell you That You're all involved In the same secret societies In some way They all lean us toward The Masters favor In every way You are ALL giving us To the enemy And they are lying about the outcome of the deeds Wake up to L-R monopoly Get into idiosyncrasy over basic rights

None of you elites should ever get the idea That your family has a rite to rule Because of your blood lordship You fooled us With that back then And you keep it hidden now That you think the same Even though The god-blood that You thought you had Is the same as ours (We're just not included In the Satan-serpent secret Top of the pyramid club Like .001 of you) So by OUR 'REAL' Godly rite's We should have The rule to the world Not those who think They are Half Human Half God The only thing you're special about is You fell hardest for their biggest lie That was The only racist idea in my head And I still think I'm no better then them Compare Look at all both our actions They who want to destroy us I want to save you Royal Bloodlines Make for a good bullshit story But we know the truth now LOVE is God!

Do you now whhhhhy 'we' don't negotiate with terrorist? It's because 'WE' Created and Control the terrorist networks And 'WE' direct them accordingly The Masters need them to be terrorist In order To create scary shows In the news Munich HA! If you believe this Spielberg propaganda Your battle is lost The story may be right But the meanings aren't You've become the terrorist If you own the terrorist Our masters caused this terrorism Not the Palestinians Or the Jews For their strife Is a calculated exchange Just as Our Masters need for opposing psalmodes As any real Torah Jew knows (not just their mouthpiece) That it's the Zionist (posing as Jews, under the Vatican and it's masters) That are the bringers of terror And not their closely related regional brothers The Arabs Who are somewhat innocent Only wanting to be free To live a happy life They don't hate Christianity They hate those Who sell themselves as 'Democracy Bringers' But bring them destruction Under hidden imperialism

Let me repeat myself a little louder 99.314% Of all terrorist All religions All gov't's All news agencies Are operated by the same people Our Masters I'm comfortable in stating that There are no real terrorist left in the world They've all been taken over By Our Masters So They can be used To clog our freedoms And make the rich More money from More wars

No reason to find a lot of proof What I'm telling you is There is so much more proof against reality You'll just have to understand that conspirators cover their plot precisely Just believe that ultimately the masters fingerprints are on everything. So look hard At ALL sides OF Everything And Trust NO ONE Who is motivated by money and power Honesty should lead Here's a hint: They called Ron Paul a kook When there was NO ONE More right then him!

John Stewart is the most precious mouthpiece for the n W o right now It's their bread and butter And the 'smart'(Ha) people are blind to his real purpose To make the other side look like half a joke When these sides are joked They make the best dividing tool This Mason Was The Most Influential Man That a chief operating officer of NYSE Had royalty bought

You sub elites: You're following the wrong kind of ideas The more money you have The stupider about life you get Don't follow them for the money You'll never be Liked for it No matter how elite You think we see you I'm sure 99.314% of you aren't in the Grand Family of Illuminati Clans You are now As always Slaves like the rest of us It's taken them 3000+ years to rule us 'ALL' again We kicked their asses once We can Spartacus this up AGAIN

I have Marching Orders for you in The Ninety Nine Compulsions My first order is to stop giving all your attention to happy gaga feeling songs and social feel-goody activities These times are serious Study your major problem Lest they keep you dancing blindly on the streets of Babylon Gomorra Jerusalem Rome Berlin You should know that Music always plays at the slaughter Page 3 Paragraph 8 in the cookbook section of The Secret Society of Serpents Written by SATAN himself THE ONLY REAL EVIL is The Reptile Race of Heathens

Show them You're voting with the coup To take the New World Order from the Monsters And give it back to The world's children I will prove that true freedom Can only be achieved If EVERYTHING Starts with True Freedom For the Whole Society That goes double now Especially since The money made off of us From purposeful misinformation's And unlawful indebtedness WAS THE ELITES PLAN Their payback For making us fight Made up wars Should be freedom from Their crazy concepts of Money Power and Indebtedness DO NOT stop until All concepts of entitled money are gone This cry for liberty is our only chance It's not just An American talking It's freedom shouting And It should go out To the free world!

This isn't just for My Fellow Americans This is for the World and The Salvation from War! I'm also in direct contact with The Power Of Love and It blazes to all Who've witnessed it That's right I'm just another preacher With a calling And I'm Trying to Save ALL Mankind

I've realized that I could be God's patsy And the new world order Was actually waiting for someone to pin as the anti-christ Since the anti-christ was a planned patsy anyway I may be used To tell of blasphemy against God Remember I'm not here to replace any prophets I believe them too Everybody was right In their time To tell of 'their own God connection'

God doesn't have character EXCEPT for thru the connection IT Is invited to join By You AND Yes I also believe that GOD May be involved in EVERY FEELING So I can have a goody lovey God connection As I cause preemptive war AND You'd known that if Your mind wasn't busied up With all these God-stitutions Hindering our Easy Connection

Just so you know If I do ever get the chance to preside I will always do my best My greatest day would be After I've conquered the world And built honest governing I'd give it freely to all of us I don't know if I can make it thru that My heart is at such peace That any big anxiety is life threatening Un-divide yourselves When you confront The Masters Go after them hard It's been a full week now And God is hitting me from all angles You must find Good God!

A real leader makes choices that puts people in danger For what he knows has to be done
This blow to the system is going to bring retribution I'm hopefully preempting a smaller war
Then we've seen in the past It's coming anyway They don't have it all set yet But it can turn
into a new regional plan fast The Masters Money Patsy Families aren't out of the country yet
So watch for them in the airports Keep them here Let's all suffer this fate They earned it
A war NOW Over OUR RIGHTS Is better than Their WAR against OUR FREEDOMS

As I'm running for Prime Minister of the United World in 2016 I'm asking for your support
To send THESE MASTERS A message That If there is a war Or a collapse We Are Done!
"YOUR GOLD HAS NO MORE WORTH" Write it on everything To get that point across
We will never again Let your money Cause problems in our World! Wars over Gold or Silver
Profits or Losses or Payments of Debt Will never mean anything To people in a free society

It seems like my life has been steered toward something special Like Making a real run for
President of the United States! Can a caring and humble man With NO money Or political
background Make a dent in our broken system? I never imagined actually running for any
kind of leadership position And I've always planned on anonymity from this too Even though
I'm a natural Leo I've only lead my businesses Which I didn't do very well I finally made the
decision about two months ago To finally go thru with all this When some closely watched
'alarms' went off And 'planned achievements' by THE MAN keep getting checked off THE
MASTERS list Which are very unfriendly to free societies And now there's not much time
for editing After this first page is written and I've rearranged a few paragraphs In the other
documents That's it The rest is in Infamy OR Infancy If everyone can chip in To help out

One thing I now for sure is That after thinking the way I do I'm in a constant state of doing
right humble blissfulness And oneness in the world Happy as can be With many who love me
If you want that too Trash Yourself You stupid fool And get real Like the rest of us in society
Who know that No One is better then us Only Because We're Not better then anyone else!

Conspiracy theory Isn't a 'what if' or Something to hide In the back of your brain It's a
conscious choice to Know what's really going on in real life OR Do you live as they tell you?
Without truth from the news And the entertainment Good-feely and Scripted brain washings
Don't look for Exact Pieces of The Conspiracy to fit They have covered all angles Osama bin
Laden said himself That HE DID NOT DO 911 For a blood thirsty Christian Hating Muslim
That would have been a great opportunity To grab some limelight And be closer to achieving
his 30 something virgin's BUT he couldn't claim it Because He Didn't Do It AND all of his
followers knew that So he couldn't lie about it either Basically Bin Laden is more like OUR
Patsy-fied loving brother Fighting against The Evil New World Order He knows who the real
oppressors are LOOK around ""IT'S US""!!! He sees US doing The opposite of what We all
think We're supposed to be doing And That's NOT Striving for Democracy Life and Liberty

Dang It's happened to me again I'm addicted to tv And all I have is an antennae I realize I'm
missing a lot of good shows But I'm also less distracted From a misleading reality Like on
family feud right now The number one answer is 'money' for what people like to give away
most Well I hate to break it to them But it seems like they're just lying to themselves It takes
right motivations to give up money And most of us Definitely want to control it's outcome

Can't you understand 'their' real direction Read about Globalization Read about Zionism
AND (I do not mean the Jews I've got nothing against them I love them too) READ ALL
CONSPIRACY IDEAS FOR YOURSELF Even if you only believe a small part of them You
need to face up to the truth That THEY WANT TO KILL 99.314% OF US Doesn't sound
like a good world government does it? To them It's just another genocide of dumb 'humans'
That The Masters brought us In ALL past wars Since all they are doing At the end of one war
Is paving the way for more wars This is not a future Even though America is leading the new
world order We are also the last saving grace to fight them After our region is killed off The
worlds last remaining 'freedom ideal' Will be gone This war Is supposed to be freedoms
downfall OBAMA KNOWS THIS And Shame on him for leading ALL of us into sociocide

Sociocide Is like getting ride of A whole genre Of music Or art's And just because I've never
watched A ballet doesn't mean I don't want you to enjoy them I love ALL kinds of music
And I don't turn down my radio When people pull up next to me As I have on country rap
hip hop rock or whatever Mostly I like old country Because it was easier To sing to my kids

What I am folks Is a starter Not a very good finisher So I'm asking for leaders to step up
And Instead of looking for Arguments Inconsistencies Abnormalities Just let this sink in That
The Elites Need Slaves and You will never be an elite You're only job now is To save your
asses From the Evil New World Order That's tricking us into A false idea of a safe And
prosperous society You must carry the torch of freedom Not the one of safe enslavement

Now that this is done I can slow down and get into some Alex Jones Who I've only started
listening to this last year I'm glad He wasn't my influence During this research But I'm
overjoyed with sharing His love for A Free Nation I'm scared to death writing this Just as he
is (I feel) With doing his show And if they have been listening to me thru my comp or cell
phone Then why aren't they coming to arrest me? I talk real loud about sensitive issues And
red flag words should be popping up On all kinds of radars But where is ANY agency to ask
me About my extreme beliefs? Even though I would never do terrorist acts If they ever were
To classify anyone as a domestic terrorist It could have been ME! Are they setting me up for
something?? A new pasty perhaps? To prove I may be I bought a car from out of state And
haven't registered it yet Even drove a long time without insurance I've been pulled over three
times and I've been sent on my way The last time I was free to go before they asked for my
license As if they were called off! My only issue That came about when listening to Alex's
show Which is called INFOWARS.COM Is he's officially scared the heck out of me now lol
Showing me all the ways Our Masters are actively coming after us It's scary But necessary to
look into THEY SUCK Thanks for the love My Brother In Peace I send My love back to you

No more false hopes! If there was ever a great Mabus It would be The beast of money itself
The anti-christ is gold! If these 'real life Satans' can't cohabitate with us They must be killed
I'm NOT the anti-christ I'm more like That dude Who brought Everlasting Peace after him

Ghost: When you die The good energy goes back to Good Energy To reuse. These energies
Love being connected To God-Typical-Love The left over energy Stays here In a 'hell life'
of leftover energies Based in Anger Self-Evil Confused Thoughts Memories and Torment
You can See and Feel these Dark Energies Attract each other Up to full sight of dark matter

You'd expect to be treated like a hero When you doing your best To save your people And ultimately The Democracy I've been called hero before Because of my service to this country
Trust that My 'type' of insanity Is a good insanity It's nice and calming To know the truth That you're doing something That you know Has to be done NO wars have ever happened If it wasn't for Our Masters Money Families causing them It's been secret groups fighting For purpose of secrecy and control And NO warring presidential patsy Should ever be called hero

LOVE

PEACE

HAPPINESS

And Freedom From

Money For Everyone
