V1 - Special Notes for DPS

1. If you cannot obtain face image, revert to B scene within the face image.
2. If you cannot obtain plate image, revert to A scene within the plate image.
3. The Reset button must be used prior to making any changes to a plate read (including changing the state) or for restarting an incident after it has been reset during QA.
4. Send all vehicles registered to a government entity. These usually have a "G" plate if it is an AZ plate. <u>Do not reject for any reason</u> (including missing video) – we must send all government vehicles regardless of the image quality. If we cannot get the entire plate – send through with 6X's in the plate field to NOF, 123 Any St, DPS, AZ 00000 . Please ask your supervisor or Team Lead if you have any questions.
5. Please make sure video is working and clear. If not, report issue to supervisor/lead, and reject for Miscellaneous Camera Issue.
6. <u>Reporting a Camera Issue</u> : Before you report a camera issue to the lead, please make sure to have 3 incident numbers for the same location with the same issue.
7. <u>Accidents</u> : Log the accident in the "Accident Log" and process as normal. If you can't get a face and/or plate read, send it through as NOF, 123 Any St, DPS, AZ 00000 with 6 X's in plate field. Please don't forget to check corporate/incomplete. <u>Do Not Reject accidents!</u>
8. <u>Do Not</u> reject any incidents for face issues if we can capture the plate image, send to batch. If you can capture plate image and not the face image, <u>do not reject</u> – send to batch. If you cannot capture plate, follow normal processing guidelines
9. <u>FACE IMAGES</u> : AZDPS requires 50% of face visible. Otherwise, if the face is obstructed by any other means, or if the driver would not be recognizable in person, reject the incident for the appropriate reject reason.
10. DPS would like to review incidents where the driver is blatantly obstructing his/her face (with a hand, magazine, clothing, etc).
