Read, but withhold conclusions pending further confirmation. That's my advice.

A Friend sent this to me:

\*FBI insider confirms everyone's worst suspicions.\*

The Hillary Clinton e-mail server was merely a distraction from the Clinton Foundation and most of Washington, D.C. is in up to their necks in what could be the biggest scandal of all times. This inside info comes from someone claiming to be a high level FBI analyst whose job was to look at the records, with his notes added. The smoking gun is about to arrive and there are a lot of people involved. To save everyone time, what follows here are the choice bits. Looks like Trump and Putin hold some of the cards. This could be the most interesting election ever.

"There is intense pressure within the FBI for us not to indict Hillary. I am posting from a position of near anonymity and enough plausible deniability to evade prosecution, as we have all been given gag orders. There is enough for Hillary and the entire government to be brought down. People do not realize how enormous this whole situation actually is. Whether she will be indicted or not depends on how much info about others involved gets out, and there are a lot of people involved. The real point

of interest is the Clinton Foundation, not the e-mail server. We received the server from Benghazi; then from the server we found data on the Clinton Foundation. Then we realized the situation is much worse than previously thought.

Super Classified Materials on the Clinton Email Server: Hillary had Special Access Programs on her server, which if made public, would literally cause an uprising and possibly foreign declarations of war. A Special Access Program is an intelligence program classified above top-secret. These programs are supposed to be held on closed servers at secret locations. The only way to get one is if you are specifically read on to a program, have a need to know, then you must physically go to a location and pass through several layers of security to even look at the program. A good example in non-classified terms would be the locations and operations of our intelligence operatives around the globe, or our missile silo locations.

A Bigger Problem than Hillary: Killing Hillary would not cause this problem to go away. The problem is with the Clinton Foundation, as I mentioned, which you should just imagine as a massive spider web of connections and money laundering, implicating hundreds of high-level people. Though I do not have a high opinion of Hillary, she is just a piece - albeit a big piece - of this massive storm. Legal is asking preliminary questions about whether or not she has been coached (she has) and setting up the general line of questioning. I am a high level analyst though, so my job is only to look at her records.

The Department of Justice is most likely looking to save itself. Find everyone involved in the Clinton Foundation, from its donors to its Board of Directors, and imagine they are all implicated. The entire Federal Government is involved. My opinion is the entire government is guilty of treason, which is why Hillary's death would not cease the investigation or prevent further scandals. Many, many people are involved. There already is evidence enough to indict. FBI Director Comey has been trying to stall because he does not want to face the Clinton Machine, as well as the rest of Washington D.C. But this case would explode into a million other cases if fully brought to light, and then we would be one agency competing against the entire government and a hoard of other interests. It is a very tense and uncomfortable position. What Attorney General Loretta Lynch is saying is she will accept whatever they do and make her determination as

she will. Nothing about her responsibilities has changed. She is simply trying to keep her hide intact.

Foreign Powers Have Some of the Documents; Russia Will Probably Leak All Info they Have. Foreign powers are in possession of some of the documents we have analyzed, because they were hacked from the Clinton server. The leaks will have to be made in a non-transparent fashion. If we recommend, we literally hand over documentation implying the entire government is involved in treason at the highest levels and everyone is about to duck and cover, as well as some sensitive details of Special Access Programs which would obliterate national security. I am not sure, but some of my war strategy buddies are estimating a high probability that Russia will leak all of the info they have to the world, since Clinton wants to go to war with them and they have no desire to be in conflict with the U.S. If we do not recommend, it will look like a cover-up and Trump will use the perception to bolster his message. I did work in PsyOps once, and Trump's use of confirmation bias is legendary.

Bill Clinton Will Likely Die This Year. If Trump Wins, Hillary Goes to Jail. Everything is Corrupt, Even Trump is Dirty. The entire government is corrupt. No one is clean.

We have our hands tied. My message to you and everyone on this board is do not get distracted by Clinton's e-mails. Focus on the Foundation. All of the nightmarish truth is there. The e-mails will pale in comparison. I do not know of Trump's record, but from the case he definitely knew to limit his exposure and make it only look like a donation.

A Multitude of Scandals: Saudi Arabia visits and donates to the Clinton Foundation, Russian Uranium fiasco, Hillary and the Israel lobby, the Council on Foreign Relations, AIPAC... The list is endless. Three Choices Could Crash Everything. I will put it to you this way: You have three choices:

A) Turn over all of the information to the Department of Justice, make public a recommendation, the truth comes out, the entire world realizes how much the U.S. is meddling in foreign affairs and we go to war, the civilian population realizes how much foreign money influences our government, and a civil war begins.

B) Cherry-pick the data to implicate the people already in the eye of public opinion, so the chips fall on the heads of a select few and the whole system does not crash.

C) Do nothing and watch the unstable political climate to gauge how you will respond.

I am confident if Trump wins Hillary will be going to jail and that is what THEY won't allow that to happen at any cost.

The Problem is the Entire Government.

FBI Director Comey will likely resign in any case. FBI is being very quiet for a reason; most of us want to keep our jobs. Snowden has nothing to do with any of this. Obama and Hillary do hate each other. Hillary hates black people and Obama dislikes recklessness. The problem is with the entire government. Hillary is just one component of that government.

Hillary Sold Safe Access Programs to Overseas Donors. All I can tell you about the Safe Access Programs is Hillary had them, and she did not have proper authority to have any of them. They were leaked to her by someone, and she did sell them to overseas donors. Possessing them alone makes her guilty of treason. Obama is loosely tied to the Clinton Foundation, but much more tied in with the same people who donate to the Clinton Foundation. Russian borders, Ukraine, everywhere NATO is, the South China Sea, the Philippines, Taiwan, Hong Kong, and Africa. George Soros is at the heart of all of this. If it comes down to it, I would fight. But most of us are of the opinion that Hillary will not be president, and having Trump in office makes our job that much easier. But right now we have to carefully wade through the mud. As I stated before, Bill Clinton likely wanted Loretta Lynch to focus on the e-mail server and shy away from prosecuting the foundation.”

**\*MOST OF THIS IS BEYOND THE AVERAGE AMERICANS COMPREHENSION\***

**\*AND THEY ARE COUNTING ON THAT.\***

Needless to say if anyone has any doubts about the validity of the above info it stands to reason that the originator has to conceal his

identity. Anyone present at the FBI hearings was sworn to secrecy and leaking any info would at least cost him his job and most likely add some jail time to boot. Worst case scenario, someone probably would put a contract out on him. Most of us know, at least the ones who have paid any attention to politics know that in the past, many who have crossed the Clintons, met an unexplainable early demise. Ron Brown and Vince Foster were no exceptions.
