LIGHT UP THE LINE

WITH THE MOUNTAIN MINUTEMEN

American Citizens—Doing the Job, Our Government Won't Do!!

Beginning Friday April 4, 2008, American citizens from across the country will muster onto Patriot Point, for something that has never been done on this stretch of the border. **We are going to "Light Up The Line".**

The intent is to get as many people as possible to use spotlights powered by generators, flashlights and headlights -- whatever you've got to light the border at night, all night for as long as possible. Most coyotes and other border crossers will not attempt to cross where there is light.

We have the power to not only stop drugs and illegal invaders from crossing, but also to draw nationwide attention and media spotlight to the Campo and Tecate sectors -- **TWO OF THE WORST AREAS FOR DRUG SMUGGLING AND ILLEGAL ALIEN CROSSINGS.**

We will be using headlights, spotlights, generators to light up 5 miles of the border. To show our Elected Officials, that a handful of American Citizens can **SECURE OUR BORDER.**

Friday, Saturday, Sunday - April 4, 5, 6, 2008 - Media Circus

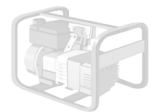

We're sending our message to the press. We need to start making our presence known. We need to have as many people, vehicles, and LIGHTS as possible to show the media, the border criminals and our government we can make a difference.

We'll need your help spreading the word nationwide

- Post info on message boards with a link to this page
- Forward this to your friends and family
- Write your favorite TV and radio hosts
- Write a letter to the editor of local and national publications

WHAT TO BRING

- Gas powered generator (if possible) & gasoline
